

# Tuffline™

The unique Tuffline™ system designed by flash retail... allows for graphics to be changed quickly and easily. The system consists of a lightweight panel, framed with aluminum or wood that can be installed onto any wall surface.

## What Tuffline™ Means To You:

- Graphic installation can be performed by store staff, saving on installation
- Protected edges
- No mounting, saving you money
- Graphics are shipped and stored in tubes for easy reuse and reduced shipping costs
- Tuffline™ can be made to almost any size and can accommodate multiple images within a single frame
- Environmentally friendly, less landfill and reduces the use of PVC and foam mount boards

## Application

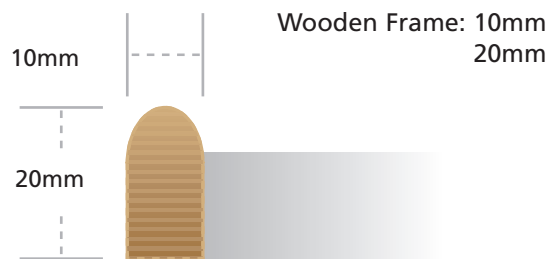

Tuffline can be applied to any wall finish, using split batons, screws, glue (maxbond), industrial Velcro, double-sided mirror tape or it can be hung like a normal picture frame.

## How big can I go

The aluminum Tuffline system can be 6m by up to 6m and the wooden Tuffline can be 3m x 3m. If you need it bigger than that, please call us and we'll find a solution.

The Tuffline system comes in two types; with an aluminum frame or with a wooden frame, the sizes are as follows:
