Image Durability:	Minimum 2 years outdoor
Thickness/weight:	450gsm
Fire Rating:	Not fire rated, (can be treated, available on request)
Material:	Base cloth - polyester, coated with PVC, (will not breakdown, not environmentally friendly)

## Features:

- Offers excellent colour saturation and contrast
- Indoor or outdoor use
- Waterproof
- Flexible
- Can be welded, stitched, rope edged, eyeleted

## Common Usage:

- Billboards
- Internal/external banners
- Hoardings

## Alternative Products:

### ecotex™:

Note: this product cannot be welded

- ecotex is an environmentally sound product
- 94% less PVC than standard vinyl products

### Mesh (Standard):

- This product has small holes in it, allowing light and wind to pass through
- Does not hold the same print quality, due to the holes
