

# LightWalls®

***illuminate an entire wall***

The impressive effect of a **LightWall®** has proven to push the boundaries of boldness and brightness by illuminating an entire wall, side to side and floor to ceiling. **LightWalls®** provide a way for any graphic to be lit from behind, with virtually no restriction on size or location.

**LightWalls®** are versatile and are being used in retail fit-outs, real estate sales suites and corporate interiors. Our high quality materials produce realistic images with a long lasting finish perfect for almost any environment.

Reed Property Group's *Platinum* apartment's display centre captures the magic of Platinum's absolute waterfront location at Maroochydore on the Sunshine Coast, Queensland. The curved **LightWall®**, which measures nearly 25 metres wide x 2.6 metres tall, depicts a 180 degree view taken from what will be an eighth floor Platinum apartment.

The *Circle on Cavill*, Gold Coast display suite designed by Petery Sexty, features an illuminating 9 metre wall with bold, psychedelic graphics that create an environment to enhance visitor's experience. From the outside, the wall provides a visual effect that captures the attention of passerby's.

Wyeth's recent display proves that tradeshow stands don't have to be all grey carpet cubicles and nikko penned name tags. A high impact stand was created using a **LightWall®** and a sleek, simple display. A regular face at industry trade shows, Wyeth wanted to invest a little less but still have an eye catching display. The solution was to rent a double-sided 5.7 x 2.8 metre **LightWall®**.

***Push the boundaries of boldness and brightness by illuminating an entire wall***
