

Lambda Photographic Paper

Width:	1.27 metres
Finish:	Matt or Gloss
Image Durability:	+100 years indoor
Thickness/weight:	250gsm
Fire Rating:	M2

Features:

- High contrast and good colour saturation makes this paper ideal for point of sale, tradeshow and product photography applications
- Photographic, continuous tone imaging
- The Lambda laser imagery device allows us to produce the highest quality prints
- This process produces an archival image, as seen in museums and galleries and high end retailers
- This product can be over-laminated and mounted

Common Usage:

- Gallery and museum graphics
- Retail graphics
- Promotional mail pieces with a difference
- Floor graphics
- Acrylic face mounts

Alternative Products:

- Metallic Lambda
- Inkjet prints
