

Smooth Wallpaper

Smooth Wallpaper has all the same attributes as conventional wallpaper. It has the same sheen, feel, scuff resistance, washability and a fire resistance rating equivalent to those required by the Australian Building Standards.

Gone are the days of factory standard patterns... Through a simple yet innovative process, Custom Wallpaper can be produced straight from a digital file, allowing for total creative freedom, and can be installed easily by anyone comfortable hanging traditional wallpaper.

Custom Wallpaper patterns can be designed by our in-house art department according to the customer's brief or they can be derived from artwork provided by the customer. Either way, aesthetic preferences are simple to apply and are only limited by one's imagination.

Width:	1.5 metres
Finish:	Low sheen
Image Durability:	15 years indoor
Thickness/weight:	212gsm
Fire Rating:	Passes Class A flame spread tests, (ASTM E-84-97a)
